Well Closure Review

Dear Mr. Thomas and Mr. Felder:

The U.S. Environmental Protection Agency (EPA) has reviewed the well closure reports for the four (4) large-capacity cesspools permanently closed at the above-referenced facility and finds them acceptable. EPA's Underground Injection Control (UIC) program inventory has been updated to reflect this closure.

Should any conditions change in the operation of the above-referenced facility, such as installing additional new structures/underground injection wells, an Inventory of Injection Wells (EPA Form 7520-16) must be submitted to the EPA, as required by 40 Code of Federal Regulations (CFR) §§144.26, 144.27 and 144.83. Failure to operate an injection well under authorization by rule or permit constitutes noncompliance with UIC program regulations. The UIC program regulations are designed to assure that the operation of injection wells will not contaminate underground sources of drinking water (USDW) and endanger human health.

Change in operation information should be addressed to:

Attention: Lisa Kim Pelcyger

Should you and/or the new owner/operator own or operate other facilities using underground injection wells, please use the enclosed inventory form (EPA Form 7520-16), copy for multiple facilities, and submit them to the address listed above. These documents can also be found on the internet at:

<http://www2.epa.gov/uic/underground-injection-control-reporting-forms-owners-or-operators>

Failure to submit any and all information truthfully and accurately may subject you and/or the new owner/operator to sanctions authorized by federal law. Please also note that all information submitted by you and/or the new owner/operator may be used in an administrative, civil judicial, or criminal action. In addition, making a knowing submission of materially false information to the U.S. Government may be a criminal offense.

If you have any questions, please contact Lisa Kim Pelcyger of my staff at (212) 637-4225 or kim.lisa@epa.gov.

Sincerely,

Nicole Foley Kraft, Chief
